

Item No. 15.4.3

Request for Council's Consideration		
<input checked="" type="checkbox"/> Agenda Item (Submitted to Municipal Clerk's Office by Noon Thursday)	<input type="checkbox"/> Added Item (Submitted to Municipal Clerk's Office by Noon Monday)	<input type="checkbox"/> Request from the Floor <input type="checkbox"/> Notice of Motion
Date of Council Meeting: November 18		
Subject: Road Safety Engineering		
Motion: That Halifax Regional Council direct the Chief Administrative Officer (CAO) to provide a staff report on options for Council to accelerate implementation of HRM's Road Safety program as it relates to road design. The report, and/or a separate budget briefing note, should: (1) Provide short-term options for the 2026/2027 budget as a potential over budget item and (2) Provide options to increase program implementation over the longer-term, similar to what has been previously done to scale up sidewalk construction and traffic calming.		
Reason: Road safety is often identified as three Es, education, enforcement and engineering. With an increase in injuries and deaths on HRM's roads, the municipality should examine all its options to improve road safety, which includes engineering and design solutions.		
Outcome Sought: Staff Recommendation Report
