June 10, 2025, Regional Council item 15.2.2:

MOVED by Councillor Austin, seconded by Councillor Cuttell THAT Halifax Regional Council:

2. Request a supplementary report on modernizing Administrative Order 39, the Taxi and Limousine Regulation Administrative Order and By-law T-1000, Respecting the Regulation of Taxis, Accessible Taxis and Limousines
3. Request a supplementary staff report and recommendations for potential amendments to HRM By-law T-1000, Respecting the Regulation of Taxis, Accessible Taxis, Limousines and Transportation Network Companies, to bring the requirements for TNC Drivers in line with the requirements for Taxi and Limousine Drivers.

MOTION AS AMENDED PUT AND PASSED

**EXECUTIVE SUMMARY**

This report responds to a motion of Regional Council requesting modernization of fare regulations for taxis, accessible taxis, and limousines and the licensing of Transportation Network Company (TNC) drivers. In addition to the requests from Council to consider changes in these areas, staff have identified several additional matters related to the vehicle for hire industry which warrant modernization or change.

Amendments to By-law T-1000, the Taxi, Limousine, and Transportation Network Companies By-law, and Administrative Order 39, the Taxi and Limousine Regulation Administrative Order, are included with this report. These amendments carry out the direction of Regional Council, and implement further changes identified by staff.

**RECOMMENDATIONS ON PAGE 2**

The vehicle for hire industry has changed substantially since the last full review of the Municipality's licensing program was conducted in 2018. While the amendments contained within this report address the specific issues which have been raised by Regional Council, a more comprehensive review of the Municipality's regulation of the vehicle for hire industry may be warranted.

## **RECOMMENDATION**

It is recommended that the Transportation Standing Committee recommend that Halifax Regional Council:

1. adopt Amending By-law T-1008, Amending By-law T-1000, the *Halifax Regional Municipality Taxi, Limousine and Transportation Network Companies By-law*, as set out in Attachment 2 to this report; and
2. adopt the amendments to Administrative Order 39, the *Taxi and Limousine Regulation Administrative Order*, as set out in Attachment 4 to this report.

## **BACKGROUND**

On June 10, 2025, Halifax Regional Council adopted amendments to Administrative Order 39, the Taxi and Limousine Regulation Administrative Order ("the administrative order"), approving an unblended rate increase to taxi and limousine rates by approximately 12.5%, with an adjustment for the 1% HST rate reduction. Currently, the Municipality sets taxi and limousine rates through the administrative order, while still allowing for taxi and limousine operators to enter into special contracts at different rates. At the time of approval of the rate increase, Council asked staff to return to Council with a supplementary report on modernizing how taxi and limousine rates are set by the Municipality, with emphasis on looking at options to de-regulate taxi and limousine rates to allow operators to set their own rates.

Additionally, Council asked staff to return with a supplementary report, including amendments to By-law T-1000, Respecting the Regulation of Taxis, Accessible Taxis, Limousines and Transportation Network Companies ("the by-law"), to bring the requirements for TNC Drivers in line with the requirements for taxi and limousine drivers. Currently, taxi and limousine drivers and owners must hold a valid licence issued by the Municipality to be allowed to drive or own a taxi or limousine in HRM. To obtain a licence, applicants must provide a satisfactory criminal records check, vulnerable sector check, child abuse registry check, drivers abstract, Nova Scotia Class 4 driver's licence, and English language test results. Vehicle owners must additionally provide proof of valid vehicle registration, vehicle inspection, and vehicle insurance. Vehicles must also meet certain requirements for age and size. While the by-law also contains requirements for TNC drivers and vehicles, the Municipality does not directly license TNC drivers and vehicles. HRM licenses the TNC, who is in turn responsible for applying the requirements of By-law T-1000 to TNC drivers and vehicles.

## **DISCUSSION**

Staff conducted an online survey, targeted consultation with the vehicle for hire industry, and performed a jurisdictional scan of other Canadian cities to gain a better understanding of how vehicle for hire regulations are evolving in other jurisdictions. The survey was completed by 126 respondents, who were asked to identify their relationship to the vehicle for hire industry, such as a taxi driver, taxi owner, TNC driver, broker, etc. Respondents could select multiple options. The survey was distributed to taxi brokers, drivers' associations, and TNCs with a request that it be forwarded to drivers and owners associated with them. The survey was also sent to other parties who may have an interest in how the vehicle for hire industry is regulated, including taxi drivers who have previously reached out to HRM Licensing and expressed an interest in participating in consultation on vehicle for hire program changes. The survey asked open-ended questions, as staff were open to considering different options for modernizing the vehicle for hire licensing

program, and did not want to limit feedback to a specific change for consideration. The full record of survey responses is included as Attachment 5 to this report, but relevant feedback is discussed in each section below as it pertains to that topic.

Taxi/limousine drivers, owners, and brokers and TNCs were well represented in the survey results. However, TNC drivers did not respond to the survey in significant numbers. Due to the smaller number of brokers and TNCs that exist in HRM, and due to the small number of TNC drivers who responded to the survey, individual responses in Attachment 5 are not attributed to how a respondent identified for privacy reasons. However, where feedback from different stakeholders differed on a topic, that is identified in the report below.

While the survey included questions related to the licensing of local tour operators, this report does not propose any changes to the licensing of tourism operators. A separate staff report responding to the July 10, 2025, motion of Regional Council to consider licensing options for local tour operators will be prepared for a future meeting of Transportation Standing Committee.

In addition to the responses received through the survey, several industry stakeholders provided specific feedback on how potential changes could impact them, or how the by-law could be modernized. Staff considered this feedback in the drafting of the amendments. Where industry feedback was in opposition to the staff recommendation contained in this report, that has been noted in the relevant sections below.

Based on feedback received from industry stakeholders, jurisdictional scans of other vehicle for hire licensing programs, and review of enabling provincial legislation, staff have prepared amendments to By-law T-1000 and Administrative Order 39. These are included as Attachments 2 and 4, respectively, to this report.

In addition to the changes stemming from Regional Council's motions, staff have identified a number of housekeeping amendments, modernizations, or process improvements which are discussed below. The amendment packages attached to this report include these staff-identified changes.

Taxi Rate Modernization:

Currently, taxi and limousine rates are set by Regional Council through Administrative Order 39. The administrative order contains a process for an annual rate review, including factors that should be taken into consideration in determining rate adjustments. Taxis and limousines are also able to charge different rates if the passenger agrees to alternate rates.

HRM has traditionally set taxi rates in part to protect the sustainability of the vehicle for hire industry by preventing a "race to the bottom" for taxi rates which could push out smaller operators. However, the introduction of TNCs into the vehicle for hire market has created an environment where two types of service providers are providing the same service, but with different rules on what they are allowed to charge passengers. This undermines the rationale of setting rates for taxis and limousines to protect the vehicle for hire industry, as TNCs can dynamically adjust their pricing to compete for riders while taxis cannot. This disparity creates an unfair advantage for one type of service provider over another.

Taxi rate regulations in Canadian jurisdictions can be broadly divided into three categories:

Fare Model	Overview
Fully regulated	A regulator sets rates that taxis may charge. <b>This is HRM's current fare regulation model, and the model used by most Canadian cities reviewed by staff.</b>
Semi-regulated	Taxi operators set their own rates, but the rates must be approved by the regulator. The regulator may have rules for the fare structure, or what may or may not be included in the fare structure. British Columbia, outside of "Common Rate Areas", would be an example of a semi-regulated model, where the Passenger Transportation Board sets rules for taxi fares, and approves fare schedules proposed by taxi operators. <b>This is staff's recommended approach.</b>
Unregulated	Taxi operators set their own rates, and there is no approval or oversight by a regulator. Most areas that have an unregulated fare model have no vehicle for hire by-law at all. There are many rural Nova Scotia municipalities which would be examples of unregulated markets.

Feedback on the survey was mixed. Respondents who identified as a taxi/limousine owner or driver, and who answered the question about how rates should be set, were fairly evenly split between wanting HRM to continue to set rates and wanting industry to set its own rates. However, most of these respondents who favoured continued fare regulation by the Municipality wanted to see the process for updating rates made simpler and more responsive to market conditions. Another common response from respondents who wanted to see HRM continue to set rates for taxis is that rates for TNCs should be regulated in the same manner. TNC rates are currently unregulated.

Brokers who responded to the survey or provided feedback to staff individually held strong positions on what HRM's role should be in setting taxi rates, but there was no consensus among brokers about what the best model would be. Responses ranged from support for HRM's current role in setting rates to removing HRM's role entirely and allowing industry to set pricing.

Some concern was raised by taxi industry that if HRM does not set a standard fare for all taxis, it will cause passenger confusion and backlash. Concerns were also raised about unfair competition, both between taxis and TNCs, and between taxis if prices are deregulated.

A review of Canadian jurisdictions which regulate the vehicle for hire industry shows that most jurisdictions still set taxi rates (Attachment 6). About half of the jurisdictions that regulate taxi rates set a maximum rate, allowing taxis to charge fares lower than the set rates.

Certain areas of British Columbia have moved to a semi-regulated model, where responsibility for rate setting was taken away from municipalities in favour of a provincial system. Taxi operators outside of "Common Rate Areas" may set their own rates, provided they meet the rules set out by the Passenger Transportation Board. However, larger urban areas in the province are considered "Common Rate Areas" where all taxi operators within a geographic area must charge the same rates. Operators can submit applications for rate adjustments to the Board, but operators representing 51% of vehicles must submit a request for rate adjustment to trigger a review. The Board makes the final determination on what rates will be. British Columbia, within Common Rate Areas, would be considered a regulated fare model, although with more input from industry on setting rates.

Only one jurisdiction reviewed had unregulated taxi rates. On Prince Edward Island, cities have the authority to regulate taxis, but none currently do. The Cities of Charlottetown and Summerside recently repealed their taxi by-laws in favour of an unregulated vehicle for hire industry.

Edmonton is the only jurisdiction reviewed by staff which regulates the rates charged by TNCs. Edmonton sets a minimum fare of \$3.50 for a TNC ride but does not impose a maximum or otherwise regulate TNC

fares in any way.

Staff are recommending a semi-regulated fare model, where taxi brokers, independent brokers, and limousine operators can create their own rate schedule that meets the parameters established by the administrative order. Brokers, independent brokers, and limousine operators would be required to submit their proposed fare schedules to the Licensing Authority for approval. Provided the fare schedule complies with the requirements of the administrative order, the rate schedules would be approved. The requirement for brokers and independent brokers to submit rate schedules for approval allows them the flexibility to determine how best to price their services, without a lengthy review and approval process, while also ensuring the rates that passengers pay do not include hidden fees or unfair charges. This would also allow the Licensing Authority to investigate disputes about fares.

Under the proposed semi-regulated model, taxi brokers and independent brokers would be required to have a metered rate, which may include some or all of the following components:

- an initial charge for starting a trip, which may or may not include an initial distance travelled
- a distance charge for distance travelled
- a wait time charge for time spent stationary or travelling below a specified speed
- charges based on zones established by the broker or independent broker
- an additional charge for additional passengers over the age of twelve (12), except where such additional passenger is a support person for a passenger with a disability
- the actual cost of any tolls incurred by the driver during the trip

Rate schedules would not be permitted to:

- set different rates for taxis and accessible taxis
- include any additional charge for the use of certain payment methods
- include any additional charge for additional passengers aged twelve (12) or younger, or for an additional passenger who is a support person for a passenger with a disability
- include any additional charge for assisting a passenger in entering or exiting the vehicle or in loading or unloading articles from the trunk
- include any additional charge for the transportation of wheelchairs or other mobility aids or assistive devices
- include any additional charge for transportation of a service animal

Taxi rates would be permitted to vary based on time of day or day of the week, such as an additional charge for a trip taken between certain hours, but may not vary based on weather conditions, special events, or vehicle availability.

Taxi brokers and independent brokers would also be permitted to set a flat rate fare schedule, which would apply to certain pre-defined trips, such as an airport run, or a trip between two specified geographic areas. These flat rate trips would not be subject to the metered rate.

Taxi brokers and independent brokers could request to adjust their rates at any time, with rate changes coming into effect immediately upon approval by the Licensing Authority, or at a future date requested by the broker or independent broker. Review of rate applications by the Licensing Authority could happen in days, compared to the current rate review process, which takes months.

Any taxi brokers or independent brokers who do not submit a proposed fare schedule to the Licensing Authority for approval will be deemed to have adopted the existing approved taxi rates approved by Regional Council on June 10, 2025. No further adjustments will be made to these rates by the Municipality. Should brokers or independent brokers wish to change their rates, they would simply have to submit a proposed fare schedule to the Licensing Authority for approval.

Taxis would have to have the approved fare schedule clearly posted in the vehicle.

As part of routine vehicle inspections conducted during the vehicle licensing process, Compliance Officers will verify that the meter is configured to charge the rates approved for the broker, or independent broker, with whom the taxi vehicle is associated.

A semi-regulated model will allow the Licensing Authority to continue to investigate complaints about overcharging for trips.

Transportation Network Company (TNC) Licensing:

Currently, the by-law requires TNCs to be licensed by HRM but does not require TNC *drivers* to be licensed. The by-law sets out minimum requirements that drivers must meet but puts the onus on the TNC to ensure their drivers meet those requirements. Should the TNC accept a driver who does not meet the by-law, the TNC would be in violation of the by-law, not the driver. The requirements for TNC drivers are similar, but not identical, to the requirements for HRM-licensed vehicle-for-hire drivers.

HRM's current licensing system for TNCs is similar to the approach originally used by most Canadian jurisdictions regulating TNCs (Attachment 6), where the regulator sets the requirements for TNC drivers, but the TNCs are responsible for ensuring compliance. However, many jurisdictions are moving towards TNC driver licensing, with about half of the jurisdictions reviewed by staff now requiring TNC drivers to hold a municipal licence and undergo the same training and screening requirements.

Taxi or limousine drivers or owners who responded to the survey, and answered the question about TNC driver licensing, almost unanimously favoured requiring TNC drivers to follow the same licensing requirements that applied to taxi and limousine drivers, with 62 supporting and only 2 opposing a licensing requirement. Taxi brokers also unanimously supported this requirement. Although there are only a small number of TNCs operating in the Halifax market, feedback ranged from opposition to implementing a licensing requirement at all, to acceptance of TNC driver licensing as long as it was implemented in a consistent and streamlined process that did not disrupt existing drivers.

The amendments contained in Attachment 2 to this report require the drivers of all vehicles for hire to be licensed by HRM, regardless of whether they drive a taxi, limousine, or TNC vehicle. The same application and training requirements would apply to all drivers. These application requirements would include:

- Criminal Record Check
- Vulnerable Sector Check
- Child Abuse Registry Check
- Nova Scotia Driver's Abstract
- Valid Nova Scotia Class 4 Driver's Licence
- Driver Photo acceptable to the Licensing Authority
- English language proficiency testing
- Completion of HRM's online Vehicle-for-Hire Training Program

As there are existing TNCs operating in HRM, and their drivers are not currently required to be licensed by HRM, the amendments include a transition period of sixty days after adoption of the amendments by Regional Council. During the transition period, existing unlicensed TNC drivers would continue to be permitted to drive for TNCs. Any new drivers could not be accepted by the TNC without a valid Vehicle for Hire Driver's Licence issued by HRM. This transition period is necessary to allow time for existing drivers to obtain the required background check information, apply to HRM for a Vehicle for Hire Driver's License, and complete mandatory online training. Staff expect there to be a significant volume of drivers who will need to make new applications. This may create a backlog in obtaining the required background checks and issuing licenses. Should sixty days prove to be insufficient due to these factors, the by-law amendments give the Licensing Authority the ability to extend this transition period.

The amendments also include minor changes to the data reporting requirements which apply to TNCs. Currently, both TNCs and Brokers are required to report quarterly on all trips taken by vehicles associated

with the broker or TNC. Brokers and TNCs are also required to provide information about a specific trip within 24 hours of the Licensing Authority requesting this information. However, the by-law also includes a requirement that TNCs provide real-time access to the TNC's platform, including the real-time location of any TNC vehicle. This requirement does not apply to brokers. In practice, the Licensing Authority has never obtained this level of access, as there are significant privacy and security considerations which make it impractical. The requirement to provide requested data within 24 hours is sufficient for all investigations conducted by the Licensing Authority, and staff have had no issues obtaining data from any broker or TNC when requested. Any emergency situation requiring more immediate access to data would likely be a police matter, rather than a request from the Licensing Authority. The by-law amendments remove the requirement for real-time access to a TNC platform but maintain the requirement for information to be provided within 24 hours.

#### Code of Conduct

The existing "Taxicab Passenger/Operator Code of Ethics" is renamed to "Vehicle for Hire Code of Conduct", and the by-law and administrative order are amended to clarify that this code of conduct applies to all passengers and drivers of vehicles for hire, regardless of whether they are a taxi, accessible taxi, limousine, or TNC.

#### Technology Changes

The by-law requirements for taxi equipment, specifically taxi meters, have remained relatively unchanged over the years. Currently, the by-law requires a taxi meter which is mechanically connected to the transmission or driveshaft of the car. This type of mechanical meter has not been standard for decades. The Licensing Authority has long accepted digital taxi meters which get information about a vehicle's speed and distance travelled through the vehicle's on-board diagnostics (OBD) port, which has similar or better accuracy than the older mechanical meters.

Improvements and innovations in taxi meter equipment means there are newer products which can just as accurately track a vehicle's speed, location, and distance traveled using GPS. This type of equipment has not been permitted to be used in taxis due to the requirement that this data come directly from the vehicle. The amendments included in this report allow the Licensing Authority to accept any type of taxi meter, regardless of technology, provided it can be demonstrated that it accurately measures vehicle speed, location, and distance traveled.

Updating the requirements for taxi meters also allows for the implementation of new accessibility features. The amendments include a requirement that all newly licensed taxis are equipped with a meter which has an audible fare announcer, which can be activated upon request of a passenger. A fare announcer, sometimes called a talking meter, verbally announces important information about the vehicle the passenger is in, including the broker name and roof light number, and the initial charge and the current fare at regular intervals during a trip. Upon conclusion of the trip, the fare announcer speaks the total fare and repeats the broker name and roof light number. Taxis equipped with a fare announcer would be required to activate it upon request of the passenger.

#### Roof lights

Prior to 2019, HRM was divided into three taxi zones. The Halifax Zone, Dartmouth Zone, and County Zone each had different roof light designs. With the elimination of zones in 2019, the Halifax Zone roof light style was adopted for all newly licensed taxis. Taxis with an existing roof light were not required to replace them, though they were not formally recognized by the by-law. The attached amendments formally recognize the validity of any pre-existing taxis which have a Dartmouth- or County-style roof light.

Once a person is approved for a taxi owner's license, they must purchase their own roof light which meets the design requirements of the administrative order. The approved design is the former Halifax-style roof light. There is only one known manufacturer of this style of roof light, which is a local company. The by-law amendments contained in this report would allow the Licensing Authority to approve an alternative roof light design, without requiring Council to amend the administrative order, should this style become unavailable from the current manufacturer.

### Online Applications

Amendments to the by-law have been included to clear the way for online applications for licences. The by-law currently requires individuals to appear in person to make an application and requires a statutory declaration which must be sworn or affirmed before a Commissioner of Oaths. Amendments to the by-law will allow the Licensing Authority to determine the application process, while still ensuring that the required information needed to make licensing decisions is received. The ability to take online applications will present a service improvement for existing vehicle for hire drivers, as well as ensuring that we have a streamlined process for the influx of TNC drivers who will have to be licensed under the proposed amendments. Individuals who do not wish to apply online will still have the option of coming to an HRM Customer Service Centre to apply in-person.

While the amendments clear the way for online applications to be implemented, staff will still have to work with our partners at various provincial and police agencies to streamline access to the information needed to make a decision on a license application. Implementation of online applications will happen once this work is complete.

### Fuel Efficient Vehicles

The administrative order currently sets minimum size requirements for vehicles to be used as taxis but relaxes these size requirements slightly for vehicles which achieve fuel efficiency of 7.8 L/100km. The administrative order does not specify whether this fuel efficiency is based on a city, highway, or combined rating, and does not specify whether this is a manufacturer's rating or an independent rating from an industry or consumer group. Additionally, the fuel efficiency of all new vehicles has improved since this allowance was introduced, and many new vehicles, regardless of size, are capable of achieving this. As a result, smaller vehicles can be approved as taxis without necessarily achieving the intent of incentivizing more fuel-efficient vehicles to be purchased as taxis. To modernize this requirement and improve enforceability, staff propose keeping the size relaxation, but instead of tying it to a fuel consumption rating, allowing the size reduction only for electric, hybrid, or other alternative renewable fuel vehicles.

### Housekeeping Amendments

The amendment package includes several minor amendments to clarify definitions, correct grammatical errors, remove duplicate or conflicting language, and clarify which types of vehicles for hire are covered by certain sections.

## **FINANCIAL IMPLICATIONS**

The fee for obtaining a two-year Vehicle for Hire Driver's Licence is \$100. Should Council adopt the amendments requiring TNC drivers to hold a valid Vehicle for Hire Driver's Licence, there will be an increase in revenue generated. At this time, it is not known how many individuals are currently driving for TNCs who don't already hold a Vehicle for Hire Driver's licence.

## **RISK CONSIDERATION**

The impact of the proposed changes on the vehicle-for-hire industry is not fully known at this time. While staff have provided a recommendation based on industry feedback, jurisdictional scans, and research, a study of the economic impact of these changes is not within the scope of this report.

## **COMMUNITY ENGAGEMENT**

Staff conducted an online survey open to the vehicle for hire industry and the public. A full report of the responses received are included in Attachment 5. Analysis of the feedback received is included in the discussion section of this report as it pertains to each proposed change.

## **ENVIRONMENTAL IMPLICATIONS**

No environmental implications were identified.

## **ALTERNATIVES**

That Transportation Standing Committee recommend that Halifax Regional Council:

1. adopt Amending By-law T-1008 and amendments to Administrative Order 39 subject to modification. This may require a supplementary staff report so that a revised amendment package could be prepared by staff.
2. refuse to adopt Amending By-law T-1008 and amendments to Administrative Order 39. This would maintain status quo.
3. request changes other than those included in this report. This would require a supplementary staff report.
4. defer the decision and request a supplementary report with additional analysis on the impacts to the vehicle for hire industry from the proposed changes of the recommendations contained in this report. This level of analysis cannot be accommodated within the existing approved budget of Regional Licensing program (S330).

## Q2 How do you think taxi and limousine rates should be set, and what should the Municipality's role be?

3	Taxi and limousine rates should be set by the parties involved. The municipality could over see it.	8/26/2025 3:24 PM
4	I believe if the municipality is regulating one group of vehicles for hire, then they should regulate all or let the industries set their own pricing, not two different sets of rules and pricing, that allows for unfair competitive advantages which should've have been discussed prior to Uber coming into hrm.	8/25/2025 1:37 PM
5	It should be managed by the municipality as it was before	8/23/2025 1:17 PM
6	The rates should be set all across the city (HRM) the same for all companies. It would be beneficial if the municipality took over this process and set out specific rates for all taxi and limousine companies. This would ensure consistency and also, reduce confusion with passengers on what rates apply to what company as the assumptions always is that it's one rate among all taxi and limousine companies but it is not.	8/20/2025 7:30 PM

I understand HRMs position on wanting to have ride share as a convenience -- but the fact mega businesses like have a Uber having a price advantage --- and negatively impact local businesses (brokers), independent drivers, and hard working people (many immigrants) -- and not be managed the same way? I never understood this. The Municipality should TNC drivers/companies to be licensed and treated the same way by HRM as vehicles for hire/taxies.	8/19/2025 9:02 AM

39	Taxi and limousine rates should be set to ensure fair prices for both passengers and drivers, balancing cost-effectiveness with the need for a sustainable industry. The Municipality's role should be to regulate rates, ensuring transparency and fairness, while also considering factors like operational costs, market conditions, and the need for a stable industry.	8/14/2025 4:03 PM
40	I believe the municipality should intervene to prevent the excessive rates sometimes charged by taxi or ride-hailing operators. In some cases, the fare can be multiplied by 1.5, or even doubled or tripled. Uber and similar companies should provide services at a consistent rate, regardless of demand during certain rush hours. In addition, the municipality should take action to prevent any monopoly from unreasonably increasing rates for all types of hire vehicles.	8/14/2025 3:57 PM

For eg if you book an Uber from downtown to Airport in Comfort category it charges \$65 and if you book in XL category (i.e Vehicle with sitting capacity of more than 5) it charges \$95. A Taxi has a fixed fare and charges just a \$7.25 extra when	8/14/2025 3:03 PM

customer calls for a Van with extra luggage and not for U6 which requires to pick passengers more than 4. For it the charges are same which is not fare. The SUV and Van charges should have a different meter rate than normal taxi and not as just \$7.25 irrespective of the distance. Secondly, Taxi services are being missed by passengers with multiple stops. The passengers should be charged an additional booking fare for each stops along with wait time. This way the interest of the drivers would be saved. The passenger will book another taxi or request the driver to wait. Which will be the driver's option to choose for no extra fare

4	I believe tour operators should be standard across the province of nova scotia , however I've heard many times over the years about the environmental impact on drivers having to leave zones as they were not licensed for said zone, most drivers will go to the locations that are busy regardless whether they're licensed for another municipality i.e when zones were separated between county and city for taxis cars had to go back to their municipality. The theyy was opening the zones would keep drivers in drop off locations , however the flaw with this is very few if any are going to stay in zones way outside the hrm core when business doesn't move quickly and dead head back into the city either way.	8/25/2025 1:44 PM
5	I think HRM should be following the provincial licensing requirements for tour operators. As a tour operator im constantly asked if I will do Peggy's Cove runs, but with the requirements to leave HRM I decline them. If me and my vehicle are inspected and certified then why wouldn't I be allowed to work in HRM. It can't be about protecting passengers, because I'm obviously certified. So its about protecting other already established businesses, which doesn't seem like something HRM should be mixed up with.	8/24/2025 10:26 PM

33	I think alot of the taxi drivers operating at the cruise ship port do not know much about the history of Halifax nor Peggy's Cove. The main interest is just to take them to Peggy's Cove and collect their money. I'm a taxi driver and I see this all the time. I here the guests complaints when I'm in Peggy's Cove. As for your operators, some are sketchy and over charge for what they offer.	8/14/2025 6:41 PM
34	There is a definite need for a revision of current municipal bylaws and regulations as they relate to tour operators. T-1000 was meant to address the need for regulation of taxi and limousine operators. Tour operators are not specifically mentioned in T-1000 and their businesses are fundamentally different in nature in comparison. HRM should allow a limited number of licensed tour operator vehicles to operate solely within HRM without fear of breaking municipal laws. Tour operators looking to offer tours that are solely within the municipality should be licensed and regulated by HRM. A limited amount of licenses should be granted to operators on a conditional basis. Until this situation is adequately addressed, current laws and regulations should be enforced and individuals/companies who are currently operating outside the boundaries of the law should not be allowed to participate under a new licensing scheme.	8/14/2025 5:34 PM
35	The drivers should speak English fluently.	8/14/2025 4:53 PM

38	Provincially licensed operators should also be required to meet the municipality's requirements.	8/14/2025 4:05 PM
39	Keep regulations as they currently are to help protect the HRM market from further erosion and revenue loss. A sustainable industry is only viable if it is financially profitable. Further revenue loss will lead to service provider loss, which will lead to service delivery loss. If service delivery continues to degrade, vulnerable and marginalized users may be unable to find transportation options, as many do not possess access to technology and credit cards necessary to use TNCs.	8/14/2025 3:52 PM

44	Make the rules same for all within the province. So anyone can operate a tour under a single system.	8/14/2025 3:11 PM
45	Make it easier	8/14/2025 3:07 PM
46	Even the Ride Sharing apps should adhere to the same rates for equality and safeguarding the interest and daily living earnings of the taxi drivers.	8/14/2025 3:04 PM
47	Level playing field is good for all	8/14/2025 2:58 PM
48	It should be more consistent yes. HRM could offer a Tour Operator Permit (for a fee if need be) to allow them to operate within HRM. What I would suggest and recommend is that the 'minimum' requirement be is to have the Tour Operator have a valid and Commercial Vehicle (CV) license in good standing. If the CV License is good enough to Operate within the Province as a whole, they should be allowed to operate within HRM without with need for any additional training/rules other than not needing to cross municipality lines/borders. This will allow for a high standard for any new operator who wishes to operate just within HRM.	8/14/2025 2:50 PM
49	I don't think so	8/14/2025 2:49 PM
50	It's a good idea to be more consistent across the industry.	8/14/2025 2:49 PM
51	?	8/14/2025 2:47 PM
52	Yes	8/14/2025 2:45 PM
53	Set number of busses they are killing the taxi business and they're giving bad name to the city by charging 120 each per person	8/14/2025 2:40 PM
54	I think anyone who does not hold an HRM licence should not be allowed to do tours off the cruise ships or hotels in Halifax	8/14/2025 2:39 PM
55	These licensing between the city and the province should be standardized. Consistency is key.	8/14/2025 2:38 PM
56	Both Continue by law but in the cruises ship industry the maritime base fully controlled the business because taxi is not advertising for visitors. So they killing taxi business .	8/14/2025 2:29 PM
57	That is a good idea	8/14/2025 2:26 PM
58	Not sure	8/14/2025 2:20 PM
59	Don't care	8/14/2025 2:20 PM

## Q5 Is there anything else you would like to share about how HRM regulates vehicles for hire?

Answered: 52 Skipped: 76

#	RESPONSES	DATE
1	Delivery Drivers and couriers should be regulated too	9/4/2025 1:56 PM
2	Please ensure that the roll out of any new By-law requirements are gradual to avoid disruption to current business operations. Also, we respectfully recommend that HRM ensures the roll out is equitable to all TNCs operating on the By-law amendment effective date to avoid monopolistic opportunities by a larger player.	8/28/2025 6:33 PM
3	I believe all vehicles for hire in hrm should be easily identified. Taxis have rooflights for safety of both passengers, driver as well as others sharing the road, I've seen way too many times cars for hire doing extremely dangerous things only to see they had a tiny Uber sticker, this keeps professional drivers being paid more accountable on the road and their surroundings.	8/25/2025 1:49 PM
4	The HRM mus balance the number of Taxi and the number of share rides vehicles. Now a days there are more ride share vehicles than the taxis.	8/23/2025 7:53 PM
5	The exam for HRM license should not be online. It can not be controlled	8/19/2025 8:36 PM
6	I feel being a driver for 30 to 40 taxi drivers should not speed around with passages try to dress more professional clean cars inside and out is something the public deserves	8/19/2025 5:03 PM
7	The two larger companies in Halifax, Uber/Casino Taxi will have strong opinions. HRM should not forget hundreds of others in the industry so not share that opinion. The opinion of those companies is whats best for their bottom line-- not their drivers.	8/19/2025 9:06 AM
8	Limitations on sharerides as well as cabs because when we are gone you have no say I the industry and we will be gone when uber is constantly taking flags downtown and we are blocked from stands or stands not put back beside uber was brought here to get rid of us in the taxi industry.	8/19/2025 1:05 AM
9	No. Thanks	8/18/2025 12:59 PM
10	There is no limit for uber drivers Which is not making sense Must be limited for drivers	8/18/2025 9:51 AM
11	Level playing field for all	8/16/2025 10:15 PM
12	Protect the taxis and the taxis operators more and put a limit number to Uber or any TNC.it s not fair we taxis have a limit and the others don t	8/16/2025 3:45 PM
13	One of the most important factors is safety for the passengers having no license insurance requirements like the industry that we are in makes it a rickshaw operation at Best also I believe that HRM police is not enforcing any rules and regulations regarding these operators and a very typical example is window shading has gone through the roof with these operators and when people say they're hesitant on going into the car because they can't even see the driver	8/15/2025 6:36 PM
14	Limit the company	8/15/2025 12:16 PM
15	To make sure all vehicles for hire must have gone to the same checks as the taxi drivers in HRM	8/15/2025 10:44 AM
16	For tours entirely within HRM, municipally licensed operators must meet all requirements of by-law T-1000 that apply to a taxi or limousine, including using licensed drivers and licensed vehicles which meet the requirements of the by-law. Passengers are entitled to an hourly rate if picked up from the Halifax Cruise Ship Terminal.	8/15/2025 9:27 AM
17	There's no limitations for uber drivers in this city which is not fair and we have only 2600 taxi cars??? Not making sense and they should have limitations on licence	8/15/2025 8:40 AM

## HRM Vehicle For Hire By-law Modernization

18	No	8/15/2025 8:36 AM
19	All ride share companies should have to go through the same procedure as taxi drivers, there's a lot of Uber drivers that are picking up flags, driving under someone's else account.	8/15/2025 7:22 AM
20	Should make an easier/faster process for criminal record checks.	8/15/2025 6:52 AM
21	Regulate all or none. Uber and other TNC's will not play along so regulate none.	8/15/2025 3:17 AM
22	The Taxi owners licenses and Uber Uber drivers should be regulated	8/15/2025 1:44 AM
23	no	8/15/2025 12:27 AM
24	HRM should stop physical inspection of taxies as the employees are not a Red seal mechanics or a qualified person to inspect any vehicles, however the taxi owners should submit their inspection slip yearly. share ride vehicles are not subjected for inspections as they transport more people than taxies and it has nothing to do the safety. Also HRM should stop the practice inspecting taxies one month before the expiry date of the inspection date not even the sticker expiry date which is against the motor vehicle act. The taxies are getting inspected at the HRM about each 11 months of prior to the yearly expire date. if you don't inspect the share riders, you should not inspect the taxies as well.	8/14/2025 10:20 PM
25	There MUST be BETTER Enforcement as there are Several Tour Operators that are operating in HRM with Suspended CV Licences (IE: SeeSight Tours /TripShepherd) that have had their CV License Suspended for FIVE years yet still are Operating with SUV's some with Ontario Plates and there are others such as Travel Portal is another one and I am sure there are others... There has to be a more severe penalties to those that are breaking the Law without and consequences...(NEED TO FLAT BED VEHICLES)	8/14/2025 8:36 PM
26	Allow taxi drivers/owners to operate accessible vehicles and permit fair charge rate or same rate as other accessible operators	8/14/2025 8:27 PM
27	Plz stop the roof light	8/14/2025 7:42 PM
28	If possible insurance should be regulated by the government because commercial insurance is very expensive and also having many years of experience doesn't help when you apply for the commercial insurance	8/14/2025 7:38 PM
29	nothing	8/14/2025 7:01 PM
30	More taxi spot checks, vehicle inspection of tire treading. Some operate with very little tread and as you know, we do get rain. Dangerous	8/14/2025 6:44 PM
31	In regards to tour operators, a new licensing program is an absolute necessity. Going forward, HRM needs to promote consultation and dialogue with tour operators to address their concerns and proposed recommendations for a new licensing program.	8/14/2025 5:43 PM
32	Uber drive must have to have taxi license to operate and their vehicles must be inspected as cabs and limo. They Should have actual commercial insurance.	8/14/2025 4:36 PM
33	The municipality should set a limit on the number of drivers operating within its boundaries. Similarly, taxi drivers, Uber, and other ride-hailing companies should be allocated a specific number of drivers. For example, if market studies show that 5,000 drivers are needed to meet demand, this number should be distributed among all companies based on clear and fair criteria. Currently, the market is oversaturated with drivers, making it difficult for anyone to earn a sustainable income. To protect the market and ensure quality service, the municipality should create a system that meets the needs of both customers and drivers.	8/14/2025 4:11 PM
34	Now days, taxis are not getting rides from cruships sice buses totally controlled the market. You have to search what the reason behind	8/14/2025 3:27 PM
35	Remove TNC just allowed local HRM drivers to operate. And give more opportunities like delivering of foods, groceries, packages etc.. and limit the drivers with 5 yrs experience Hrm driving records	8/14/2025 3:20 PM
36	Either control prices of Uber or free control of prices on taxi industry.	8/14/2025 3:12 PM
37	Yess the exam is there, everyone has it in their hands, some drivers hv taken pictures, of bylaws and tests, thts why lots of guys clearing tests on daily basis, along with this due to lack of strict invigilator, thy can open a extra screen on pc for maps and all thts thy getting	8/14/2025 3:09 PM

license. I feel the ratio of drivers for civilian are more thn enough in hrm we dont need more drivers,

38	No	8/14/2025 3:08 PM
39	HRM should have save policies and rates applicable for Ride sharing companies as that for taxi and regulate both equally. Secondly Ride sharing apps such as Uber deducts more than 40% of fare and pays little to drivers. This extra amount is moving out of Canada directly in the pockets of USA based corporates. This should be regulated and stopped	8/14/2025 3:07 PM
40	Better oversight of Ubers is a must, in Athens Greece all Ubers are licensed taxi drivers, extremely efficient service that sustains a competitive and competent vehicle for hire system	8/14/2025 3:00 PM
41	Any tour operator who has had a CV licenced suspended or is under suspension should not be allowed to operate within HRM without	8/14/2025 2:52 PM
42	The number of drivers needs to be regulated to prevent an oversupply of drivers competing for a limited amount of customers.	8/14/2025 2:51 PM
43	Thank you	8/14/2025 2:49 PM
44	All old and dirty cars should remove from taxi businesses because those old and dirty cars hurt taxi businesses in community	8/14/2025 2:48 PM
45	Right now between licenced cars and Uber (Which should not be aloud here period) there are no regulations on the number of cars aloud and the industry is over saturated making it really hard and longer days for less pay.Iam a driver of 33yrs.	8/14/2025 2:43 PM
46	Make tnc regulated, pay insurance like taxi driver	8/14/2025 2:41 PM
47	Uber should be treated like every taxi company in Halifax. Either regulate them as the taxi companies are regulated, or regulate the taxi companies as Uber is regulated.	8/14/2025 2:40 PM
48	Now there is many taxi and limousine drivers and Uber drivers. Because of this we can't make enough money and difficult to support family, pay bill special I surance very high and the company monopoly now. Please stop spreading license check the business environment, adjacent parking stand. Thank you.	8/14/2025 2:34 PM
49	Every Taxi company must be regulated for safety purposes, Uber is not safe for passengers at all	8/14/2025 2:28 PM
50	Stop the street checks on taxis if you're not gonna do it for uber too. HRM is too uneven in how they treat taxis versus uber.	8/14/2025 2:24 PM
51	Ban uber and support local drivers	8/14/2025 2:20 PM
52	The playing field between Taxi's and TNC's must be levelled. A two tier system is not working. Taxi's have too many regulations and TNC's do not have enough.	8/14/2025 1:59 PM
