Date of Council Meeting: Tuesday, January 14		
Subject: Changes to the Construction and Demolition Waste Management Strategy		
Motion for Council to Consider: That Halifax Regional Council direct the Chief Administrative Officer to prepare a staff report to review the land use policies and regulations of the Construction and Demolition Waste Management Strategy to consider ways to better mitigate impacts on residential properties, such as appropriate locations for C&D facilities, provisions for buffering and screening and reducing impacts of truck traffic. The report should consider planning tools for regulating C&D facilities, and any necessary public or industry engagement.		
Reason: By-law L-200 has specific requirements for waste generated by Construction or Demolition activity. This report would expand on these requirements to better mitigate impacts of construction waste on residential properties.		
Outcome Sought: Staff report on expanded regulations for the Construction and Demolition Waste Management Strategy		
Councillor Trish Purdy	District 4
